Competitor's Music Devices

Music is **not mandatory** for the freestyle, but competitors may use music to present their freestyle routines, which must last between 75 and 90 seconds. They can choose to:

- **DISPLAY MUSIC OR NOT** to the audience (judges and public),
- **BRING MUSIC OR NOT FOR THEMSELVES**, synchronized with the music played to the audience.

NOTE: MUSIC WILL NOT BE TAKEN INTO ACCOUNT IN THE JUDGING.

This is a good opportunity to try flying to music without any impact on your judging... 😊

The Freestyle and Dynamic disciplines will be judged remotely by judges.

If competitors chose to bring music for themselves, the organizer will provide the synchronization devices between competitors' headphones and audience speakers.

- **Each competitor must bring their own headphones with a 3.5mm jack. Make sure that the headphones are suitable for a noisy environment with included protections, basic headphones will not be suitable for use in a wind tunnel.**
- The organization will then provide a small device into which they will plug their headphone jack and that they can slip into their suit.
- Please send your music file in MP3 format to steven@weembi.com
